Sterling Lawn
Seed turfs carry
over the winter
in northern zones.

for Home Lawns, Industrial Plant Lawns,
Government Property, Parks, Play-
grounds, Athletic Fields, Airports

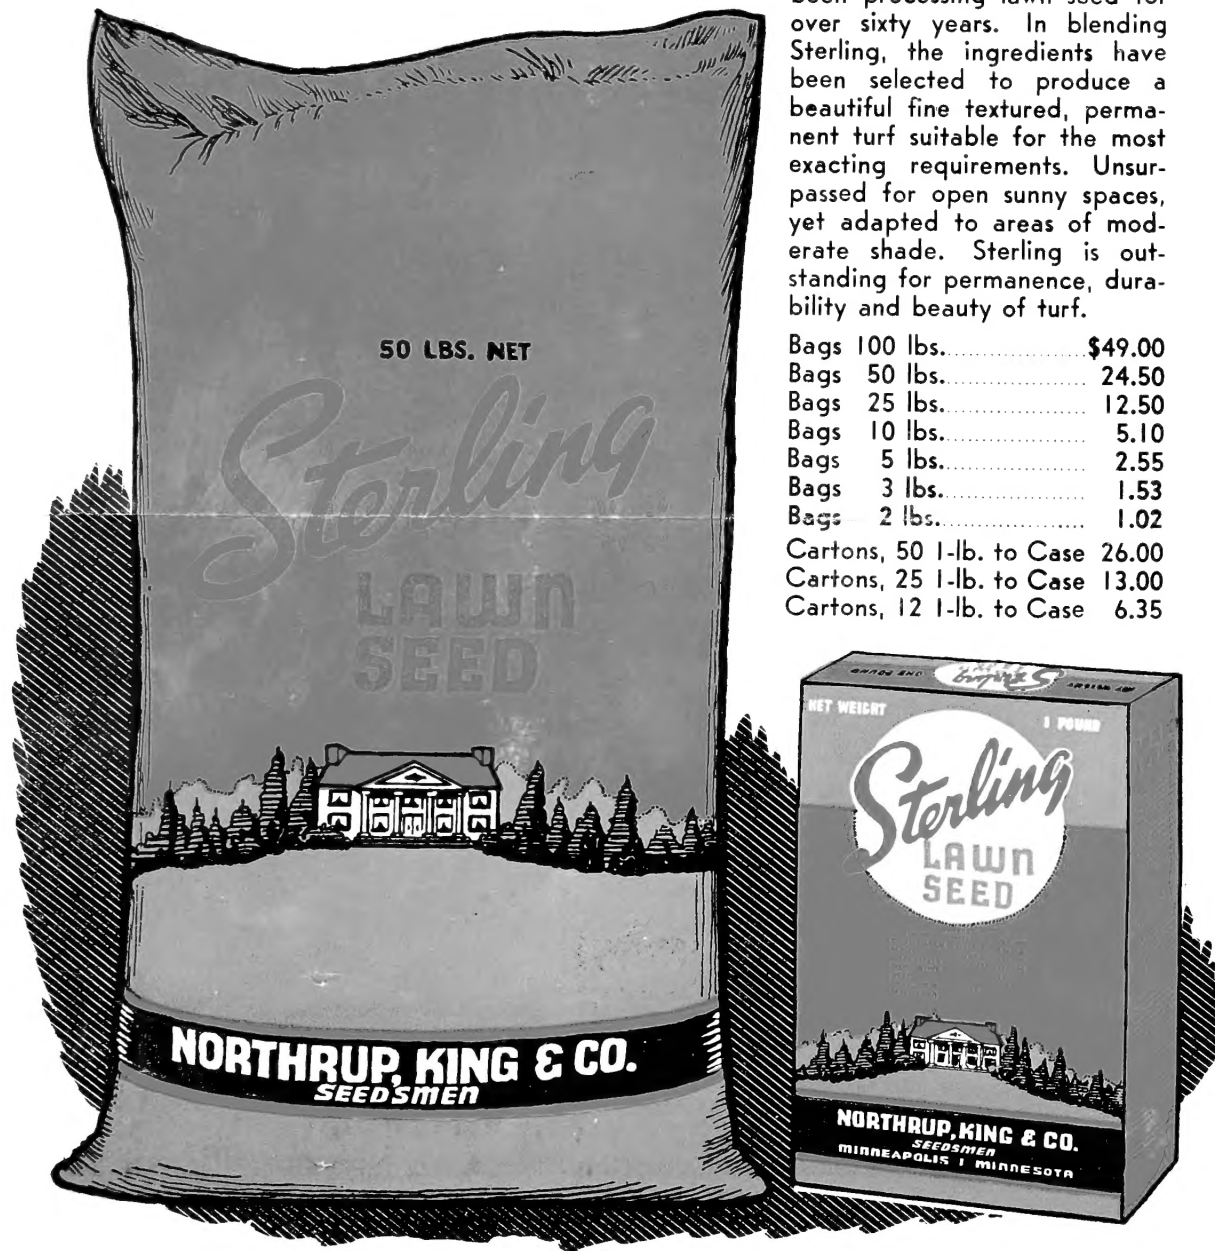

Make Permanent Friends With STERLING LAWN SEED Our Premium Mixture

During the past two or three years the crops of perennial grasses used in high grade lawn seed have been extremely short and prices, consequently, have been very high. The 1947 crops of these grasses are much greater with a corresponding drop in values — so Northrup, King lawn mixtures are again listed at approximately prewar figures. This should greatly increase the sale of all Northrup, King lawn mixtures but especially of Sterling which is composed entirely of perennials which have been scarce.

Sterling Lawn Seed is the Premier lawn seed product of Northrup, King & Co., who have

been processing lawn seed for over sixty years. In blending Sterling, the ingredients have been selected to produce a beautiful fine textured, permanent turf suitable for the most exacting requirements. Unsurpassed for open sunny spaces, yet adapted to areas of moderate shade. Sterling is outstanding for permanence, durability and beauty of turf.
